DETAILED ACTION

Examiner's Amendment/Comment

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Examiner's Amendment/Comment".

The title of the invention is not descriptive. In accordance to MPEP 606.01, the title has been changed to read:

NETWORK FAULT MANAGER FOR MAINTAINING ALARM CONDITIONS

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because Figures 5-18 are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

An examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the Issue Fee.

Authorization for this Examiner's Amendment was given in a telephone interview with Rick Toering (Reg. #43,195) on October 23, 2006.

Please cancel claims 19-22.

Please change "Fro example" to "For example" (see page 9 line 9 of Specifications)

Examiner's Statement of Reason for Allowance

Claims 1-18 are allowable over the prior art of records.

The following is an Examiner's statement of reasons for the indication of allowable subject matter: Claims 1, 5, and 12 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior arts.

The primary reason for allowance for claim 1 is the inclusion of determining whether the next trigger event notification occurred within a predetermined amount of time after the first triggering event notification, if the next triggering event notification occurred within a predetermined amount of time the first triggering notification, maintaining the first alarm condition and if the next triggering event notification occurred more than said predetermined amount of time after the first triggering notification, asserting a second alarm condition to represent the next triggering event notification in conjunction with the rest of the limitation set forth in the claim.

The primary reason for allowance for claim 5 and 12 is the inclusion of comparing N/T_i to a second threshold, if N/T_i is greater than said second threshold and if a preexisting alarm condition does not exist, asserting a first alarm and if N/T_i is greater than said second threshold and if the preexisting alarm condition does exist, maintaining the preexisting alarm condition for

a predetermined future period of time in conjunction with the rest of the limitation set forth in the claim.

The remaining claims, not specifically mentioned, are allowed because they are dependent upon one of the claim mentioned above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. PTO-892.
